# About Giveeffect

At Giveeffect we believe you are what you measure. While measuring, tracking and interpreting data on constituents, donors and volunteers is a core pillar of nonprofit development teams, this task can become difficult with fragmented systems. If you rely on import/export as a means to gather data then you are only seeing parts of the chapter, not the full story. With Giveeffect's connected system, you always get a 360° view on all data points.

Giveeffect combines the following systems into one, then auto-tracks and reports on the key data metrics.

- 01 Online Giving & Merchant System
- 02 Events, Auctions & Fundraising System
- 03 Volunteer System
- 04 Full Contact & Relationship Management Database
- 05 Nonprofit Management System
- 06 Websites & Web Hosting
- 07 Email Marketing & Direct Mail System (15k free emails/month)
- 08 Wealth Screening & Major Gifts System
- 09 Membership Management System
- 10 Smart Automation (never import data again!)

# Existing systems replaced by using Giveeffect

## Why the need for an all-in-one system?

Keep track of your key metrics with a connected system. Data gives you powerful insights!
